EDITORIAL:

AT THE EDGE OF THE 18TH ANNIVERSARY.

THE ACHIEVEMENT OF FREEDOM OF THE HOMELAND AND OF OUR PEOPLE IS THE HIGHEST AND NOBEL AIM WE ARE STRUGGLING FOR.

9th of June this year mark the 18th anniversary of the Omani Revolution led by the People's Front for the Liberation of Oman. The Omani Revolution represents a great and important step in the militant march of our Omani people along with their national classes and groups that care for freedom of the homeland and dignity of the people. It is the continuation of the struggles our Omani peoples had been waging since the colonialist presence on their lands upto now, despite the aspects of "independence" linked with US colonialism which has turned our country into an advanced base for striking our people and the neighbouring peoples. This long and difficult struggle is waged by our people for a free and independent Oman.

The 9th June Revolution represents the most important event in Oman and the neighbouring region as it has arised for uprooting colonialism and its monopolist companies along with the autocratic Sultans' rule. The flame which we first ignited on the 9th June 1965 was not a result of individual will but a reflection of our country's reality. For individual will does not make revolutions. If it does there can be no continuation to such a revolution. The ignition and continuation of the Omani Revolution under the leadership of the PFLO is a reflection of the reality of our homeland, despite some reforms made by the puppet regime of Muscat since 1970. Those reforms are a result of sacrifices extended by our Omani people in the first place, and not a gift from the authorities and makers of the regime.

In the Political Programme of the PFLO adopted by the Third General National Congress held on 9th June 1982, it was emphasized "... it is evident that everything that have been done in our country under the slogan of "British reform programme" carried by the puppet Sultan since 1970 upto now, did offer nothing for the cause of national issue and achievement of political independence.

In contrary the British political and military grip on the Sultanate have been strengthened and the doors of Oman opened to the American occupation bases and forces—a new factor in the colonialist and imperialist domination of our country. Oman is completely and actively used for the service of the imperialist, zionist and racist plans .

On page 73-74 of the Political programme under the title "political, economic and social reform" it was also emphasized " we are first concerned with the political aspect where nothing have essentially changed in the rule which is still an absolute autocratic rule despite eleven years of the British-Quabocs reform programme".

This true analysis realized by the Third General National Congress of the PFLO is a result of 18 years soar struggles on political, military and social fields. Therefore, the continuation of the Omani revolution is the result of the reality which brought the revolution..

The puppet regime of Muscat and its imperialist masters, through this period of difficult struggle have made our people bear a lot of sufferings, count hundreds of martyres, tens of political detainees and hundreds of homeless.

Our people are well aware that 18 years were not without result as some could think, but had many and great results.

We are unable to mention all the accomplishments achieved by our revolution either on the military, political, social or cultural fields, but the most important gains achieved by our revolution is the determination of our Omani people for freedom of the homeland which is the most costly thing and which the 9th June revolution considers the main aim in our national struggle against the British and American imperialists and their puppets in Muscat. We are fully confident that our people are completely prepared to achieve their noble objective, thanks to their unity and cohesion with their vanguard, the People's Front for the Liberation Of Oman.

NEWS OF THE REVOLUTION:

=====

CC EXECUTIVE COMMITTEE OF THE FRONT CONGRATULATES
THE IRISH WORKERS PARTY.

=====

Within the framework of the internationalist solidarity and developed combative relations between the PFLO and the Irish Workers Party, the executive committee of the CC of the Front sent a cable of congratulations to the periodical congress of the Party in which it expressed its wishes of success to the struggle of the Party. The cable read :

Comrades Presidium of Irish Workers Party,

Comrades,

In the name of the CC of the PFLO, we warmly greet your periodical congress wishing progress and success to its works.

Our militant Omani masses in general and militants of our Front in particular express their admiration for your struggle for peace and democracy and for the establishment of democratic progressive government in northern Ireland.

We are with you in the same struggle for peace and democracy, and against imperialism, zionism and reaction.

Once again, we wish your congress, success and your friendly Party, progress on the path of socialism and social progress for your people.

PRESS STATEMENT

=====

Inhabitants of Mussandam region have protested against the puppet regime of Muscat which intends to divide the region outlooking Hormuz strait and inhabited by the Omani Shahoooh tribe. This region had not been under British and Quaboos rule untill 1970. Following the coming to power of Quaboos, the British concentrated on the region after the signing of June 1980 agreement between Muscat and the USA. Then the US administration started the construction of its land bases in the region related to the American Rapid Deployment Forces which with the cooperation of the mercenary army of Muscat wage various kinds of repression against the inhabitants of the region to force them evacuate in order to enable the imperialist forces and mercenary army of the Muscat regime to turn it into a military base to serve American and reactionary plans in the Gulf and Arab Peninsula.

The formation of the so-called "Development Committee" of Mussandam region is part of conspiracy against the inhabitants of the region. The joint American-Omani Committee survey the region to set up further American bases and not for its development as pretended by the regime. The inhabitants of this region are well aware that this committee has only set further repressive bases and forces and restrict their progress.

The citizens of the Mussandam region protest against the Quaboos regime's acts in their region and are demanding the elimination of the American imperialist and reactionary bases.

Hundreds of peoples have gathered to march to Muscat for protesting against the inhuman acts of the puppet regime of Muscat and its imperialist masters.

We call upon the Arab and international public opinion to support our Omani people and expose these inhuman and repressive acts of the Muscat puppet regime.

17/5/1985.

PFLO.

MASS ORGANISATIONS

OMANI MASS ORGANISATIONS CONDEMN 'LEBANESE-ISRAELI' AGREEMENT".

The Omani Mass Organisations condemned the Lebanese-Israeli agreement concluded under the patronage of the American imperialism and supported by the Arab reactionary regimes.

The National Committee of Omani Workers, Omani Woman Organisation, Omani Youth Organisation and the National Union of Omani Students issued a communique in which they condemned this agreement and described it as "complete submission to the Zionist enemy and submitting Lebanon and its people to the American administration and its ally Israel. It added that Lebanon by signing this agreement will become another Camp David station, and a political and military base from which Zionism will implement its plans against Syria and all our Arab nations"

The communique also emphasized that: "the failure of this agreement is an important task shouldered by every honest Arab. While we denounce the submission to this treacherous agreement, we affirm our unlimited support to the Lebanese people, their national forces, the Palestinian revolution and to the steadfast Syria in their stand against this agreement".

The Omani Mass Organisations concluded the communique conveying greetings for the heroic stand of the Lebanese militants and the Lebanese and Palestinian peoples and also for the honest attitude of Syria in the face of the American-Zionist-reaction plans against our Arab nation. The communique also conveyed greetings for the support of the Soviet Union, the loyal ally of our Arab nation's issues.

... AND SENT A CABLE TO AMIN AL-GUMAYEL

The Omani Mass Organisations also sent a cable denouncing this agreement to Amin Al-Gumayel, Lebanese President. The cable read:

We, the Omani Mass Organisations, strongly denounce the agreement signed recently between the Lebanese government and the Zionist enemy and consider this agreement as complete submission to the military, political and economic hegemony of the American imperialism and the Zionist enemy on the expense of the Lebanese people who struggled and offered thousands of heroic martyres for the cause of the unity of Lebanon and its independence.

We call upon you to cancel this agreement and conform to the opinion of the Lebanese people and all their national and democratic forces opposing the imperialist-Zionist occupation.

MASS ORGANISATIONS:

NATIONAL COMMITTEE OF OMANI WORKERS MEETS SEVERAL
DELEGATIONS TAKING PART IN THE CELEBRATIONS MARKING MAY DAY

The first week of May, witnessed extensive activities of the National Committee of Omani Workers. Its representatives have met several workers delegations on the occasion of 1st May Day, the international working class day. A spokesman in the name of the National Committee of the Omani Workers delivered a press statement sent Al-Thaurah Bulletin which stated:

"... We took part in a number of workers activities celebrating our international day and the Omani working people have taken part along with all workers in the world to the celebrations of this glorious day. We also met with friendly working delegations taking part in the celebrations of 1st of May. We have met with the World trade unions confederation and delegations from Kuwait, Syria and the Soviet Union, Czechoslovakia and the Socialist Ethiopia. These meetings dealt with bilateral relations between the National Committee of Omani Workers and workers and confederations of friendly countries and also dealt with the difficult conditions surrounding the Omani workers inside the homeland and the attitude of the Quaboos puppet regime which rejects the formation of any union activity to defend our Omani working people's right in the face of the monopoly companies and brokers of the Muscat regime.

These delegations affirmed their stand by the side of our struggle for trade union rights, and for democratic freedoms in general in our country and expulsion of the foreign military presence. Our meetings were very fruitful and useful".

LOCAL NEWS

WHY DID QUABOOS VISIT THE USA

The recent visit of the puppet Quaboos to the US represents a threat to security and stability of our people and homeland Oman. The puppet regime of Quaboos on the Gulf and Arabian level plays a dangerous role, especially in the present situation of the Middle East and taking into consideration the role entrusted to the puppets of the USA in the Arab region beginning with Quaboos and ending with King Hussain. If the complete loyalty to the USA and the complete submission to its plans in the region is one of this visit's goal American and Omani officials had advanced other reasons i.e. concerning the Gulf following the establishment of the Gulf Cooperation Council and concerning the world connected with the President Reagan initiative and plots of King Hussain. This gives a clear picture of the dangerous role being played by the Muscat regime in the framework of the imperialist reactionary plan in the region in general.

Now let us view the reasons of this visit

First In the local field Quaboos visit to Washington pursue the following goal "security strategic relations between Oman and the USA. US economic assistance to Oman".

The US-Qaboos relations have achieved great progress in this sphere, as a senior official American in the Foreign Ministry affirmed "the American-Omani links are of various forms, but we are concentrating on the security and military spheres". The USA has found in Muscat regime the ally which fulfils its promises even at the expense of the Omani people and safety of our lands.

The American-Qaboos link is defined by further expansion of the treacherous role carried by Qaboos in the region, implementing US plans aimed at dominating our country and turning it into a US military advanced base between the Gulf and the Indian Ocean.

Second As regards the Gulf, the visit of Qaboos to Washington gains its importance as it is in conformity with the role of the Gulf Cooperation Council for facilitating the implementation of US imperialist plans and its policies in the region. As an evidence Qaboos had been authorized by "the Council States" for negotiating with the American administration. Towards the Iraq-Iran war, the attitude of the "Gulf Cooperation Council" - Saudi Arabia and the Sultanate - does not differ to that of the USA.

Like the US attitude, the Gulf Cooperation States favour creating a state of instability which provides a suitable climate for American and Saudi plans in the Gulf region for restricting national and democratic freedoms and repressing any anti-imperialist stand in the Peninsula and Gulf region in addition to their conspiracies against both Iraqi and Iranian peoples.

Third Concerning the Arab world this visit's goal is not separated from that pursued in the Gulf especially because Qaboos is no more than a bird that sings in secret. Actually there are a lot of differences of position between the Gulf gathering and the Arab majority in general starting with Fes Summit, the first and the second and ending with the latest summit of the Cooperation Council.

Following the end of isolation of the Qaboos regime, thanks to the American and its puppets in Saudi Arabia and other Gulf States, the Qaboos regime shouldered many roles to play in the framework of "the Gulf Council". Here is the USA now along with its puppets trying to ensure the regime new roles to play in order to escalate the American and Arab reaction conspiracy for solving the Middle East issue, especially if we take into consideration the treacherous attitude of Qaboos towards the struggles of the Palestinian people led by the PLO, sole and legitimate representative of the Palestinian Arab people. Furthermore, relations that link the Qaboos regime to Camp David and the regimes of Husni Mubarek and King Hussain are significant. Hence, the Qaboos visit to Washington is mainly the reflection of the Arab reaction aimed at ensuring the success of the Reagan initiative in the Arab region.

In conclusion, the puppet Qaboos does not only carry the US and Arab reaction's solution to the Middle East issues. The Arab reaction couldn't find better than Qaboos, the shameless Sultan puppet of the USA.

LOCAL PRESS

ROBBERY CLEARLY EXPOSED.

MUSCAT RULERS TAKE LOANS TO COVER DEFICIT IN THE BUDGET.

The budget of the Muscat regime faces financial deficit in the second five year plan started in November 1981. This deficit is estimated at US \$600 millions.

In order to avoid it, Muscat rulers take loans from the Western Banks, especially American And British Banks.

Gulf International Bank will offer US \$300 millions as a loan to the Qaboos government for the period of seven years. according to MEED magazine, it's interest is more than of other western Banks were to give this loan.

During the first two years, Gulf International Bank's interest was estimated at more than London Bank at 14%, and 5/8 % more than Libor Bank for the rest five years.

This means officials in Qaboos government take bribes according to the interests the bank gains from the government budget.

Of course this is not the first time the officials in Qaboos government take bribes from the Western financial corporations from which the government take loans or which implement construction projects in our country.

And of course it will not be the last, as the Qaboos government in its structure is founded on bribes and robbery.

QABOOS GOVERNMENT AND THE "LEBANESE-ISRAELI AGREEMENT"

Qaboos government has expressed its complete and unlimited support to the agreement concluded between the Lebanese government and the Zionist entity under the patronage of the USA for the so-called "withdrawal of the foreign forces from Lebanon".

This support was expressed by Yousef Bin Dhafoor, Minister of the State for Foreign Affairs. He declared that "the Sultanate of Oman believes that what was agreed upon by the legislative and executive authorities in Lebanon is in the interest of Lebanon". Therefore, it is supported by the Sultanate of Oman.

We do not, of course, expect from a government which has sold the country it is ruling to . . . US imperialism, to take a position contradicting the Phalangist government of Lebanon, loyal to US imperialism and enemy of the Palestinian issue and of any other liberation trend in the Arab region.

We do not expect the Qaboos government to say "No" to reconciliation with Israel and its recognition at the expense of the Arab issue as far as the US wants this reconciliation and wants too the submission of the Arabs.

The government which has expressed its support to Camp David and Reagan initiative, will support any agreement under the patronage of the USA whatever treacherous it would be to the Arab nation.

GULF AND PENINSULA:

=====

LIES OF AL-SAUD EXPOSED.

Since its coming to power, the Al-Saud family wages campaigns of repression against honest citizens in that country including harassment, detentions and killings under false accusations. Any person standing for national or elementary democratic demands is victim of repression. If men and women may be sentenced to death for having human and honest contacts in that country, what achievements then could be expected as regards national and democratic demands?.

Now and then when citizens are being detained in Saudi Arabia, the reactionary information media represents the detainees as dissidents and enemies of Islam. Sometimes they are accused of being agents of foreign powers. It is not a secret that night clubs, alcohol are the favourite occupation of the members of the Al-Saud family.

The presence of US experts in Saudi Arabia is intended for defined goals. The cruel repression that followed mass uprising of Mecca Mosque is an evidence of the US "assistance" to the Al-Saud rule.

News transmitted by reactionary and imperialist press agencies represent the country as if it were serving the interest of citizens and the country, when actually everything is done for the service of the Al-Saud family, the monopolies and imperialism.

GULF COOPERATION COUNCIL
CLEAR SUPPORT TO LEBANESE-ZIONIST AGREEMENT DEFINE
THE NATURE AND ROLE OF GULF COOPERATION COUNCIL
=====

Despite that the "Gulf Cooperation Council" has called in its closing statement issued by the meetings of the seventh session of the Ministerial Council held in Riyadh on Wednesday 18/5/1983, upon Lebanon to respect its obligations towards the Arabs to not expose the security of Lebanon and of any other Arab State to danger. The statement clearly expressed support to the US sponsored agreement concluded between the Lebanese Phalangist government and the Zionist entity, referring to the respect of Lebanon will which it has expressed freely through its constitutional institutions.

In the GCC States opinion, if this agreement had been accepted by the Lebanese government, it is then considered legal and lawful, therefore it deserve support and respect of the GCC.

It is obvious that the attitude of the States of the GCC is a true interpretation of Al-Saud and Qaboos government's attitude known for their unlimited loyalty to the USA.

The Al-Saud government has also expressed its support to this agreement in the same terms as the "Gulf Cooperation Council" communique, so has and the Qaboos government, despite the strong opposition this agreement had provoked among the Lebanese masses with their national and democratic forces and among the Arab masses along with their national and democratic forces.

The attitude of the Gulf Cooperation Council States towards this agreement despite their claims on the security of the other Arab countries and on the eagerness to solve disputes between Syria and Lebanon, it defines the real political nature of this Council. It represents the continuation of the American plan that began with Camp David, followed by the Fahd project and Reagan initiative and now the present agreement which of course does not represent the last stage of the US plan.

The claims of the GCC states on their eagerness to solve disputes between Syria and Lebanon point that these governments would put pressure on Syria so as to support this agreement and not on the Lebanese government to force it abandon this agreement.

To claim their concern on the security of the other Arab countries is mere empty sentence. However, if these governments are actually concerned with security why should they then affirm their respect to the attitude of the Lebanese government while it has adopted and approved the agreement that represents clear and open threat to the security of Syria and Arab security in general.

Hence, the real nature and role of "Gulf Cooperation Council" is significant. It is clearly contributing to the implementation of the US imperialism plan. This is our point of view since the formation of the Gulf.

WORKING MEMO:

=== =====

DAMASCUS WILL REMAIN THE SYMBOL OF ARAB STEADFASTNESS
=====

Since the Zionist aggression on the Lebanese lands on June 1962 thanks to American imperialism backing and blessed by the Arab reaction, the zionists' strategic goal was to militarily and politically eliminate the Palestinian Revolution, and to kneel Syria. The zionists along with their imperialists and reactionary forces allies led by the USA hoped that after taking the Palestinian forces from Beirut, Syria will have no choice except submission or war. They also thought that Syria would prefer submission than war, in particular following the change of the balance of power in favor of the zionists, imperialist and reaction tripartite alliance. These accounts became meaningless in the face of steadfast Syria, its leadership and people.

Therefore, the Nazi rulers in Tel-aviv had began preparing for aggression against Damascus, in hope to kneel Syria. We found that preparations for aggression against this steadfast and militant arab country are not undertaken by Tel-aviv alone, but hand in hand with merican imperialism and the Arab reaction. On the occasion of the independence day, the US. sent a message expressing its willingness to liberate the Golan heights. Through this exposed demogogy Washington attempts to avert Damascus from imminent zionist aggression to enable the zionists achieve military victory as fast as possible.

Secondly, Washington wants Damascus to support infamous Reagan project, a project that Washington tries to rescue from imminent death. It views Damascus as one of the basic obstacles before this project. Third Washington see Damascus as the basic obstacle to Camp David agreements.

The Arab reaction, particularly Jordan and Saudi Arabia conspires against Syria by financing and arming the reactionary Muslim Brotherhood gangs in order to create a factor of pressure on Damascus. Syrian people would be occupied with internal problems, and its ability for facing the imperialist-zionist aggression would therefore be weakened.

The Arab reaction is prepared to support anything that would hinder Syria and its steadfastness in the face of the plot being planed not only against Syria, but also against all Arab national liberation movements.

We are aware that the imperialist, zionist and reactionary plot and plans against the sister Syrian Arab Republic are massive and multifaced. We are also aware that there are many difficulties facing Damascus and the arab national liberation movement as a result. In the face of these plottings and plans, a firm and militant unity of all Arab national liberation movement, above all the Palestinian revolution and Syria is of great necessity. At the same time we are aware that the steadfast Syria which choiced the difficult road cannot be easily defeated, as behind the Syrian people stand the Arab people masses from the Ocean to the Gulf.

The Syrian Arab people have exerted all their efforts to safeguard the national trend of their militant country and are always prepared to extend further sacrifices on this road. There are also allies of Syria on the international field, above all the friendly and strategic ally of the Arab-revolutionary movements - the Soviet Union. Therefore, the conspirators should know that Syria is not alone and that Damascus will remain a symbol of the Arab national steadfastness.

--0-008-0-0-000--

GREECE: A MATTER OF NATIONAL SOVEREIGNTY

Since the victory of the Socialist and Communist alliance in Greece, landmarks of changes in the government policy begun to rise, in particular in the path of consolidating the country's freedom and independence towards Nato and US imperialism. It became obvious, following the demand of the Greek government to put an end to its links with Nato, at least to its military aspect; to put an end to the US military presence on the Greek lands.

For the Greek government it is not a matter of loyalty to voters as regards the membership of Greece in the Nato. The main slogan raised by the Socialist and democratic forces during the elections campaign was the elimination of US bases from their country- but a matter of their national sovereignty, their principle and main political trend.

The Papandreu government had resumed negotiations with the US administration and its western allies since the first day of its coming to power in 1981. Its efforts still proceed on the same direction. As it could be expected, US imperialism along with its allies, stepped up various kind of blackmail, political and economic pressure to force Greece to revise its attitude. The USA for instance, is encouraging the right wing to strengthening opposition while the US had decided to limit its aid to Greece to US\$ 280 millions.

On the other hand, the US administration attempts exploit the Cyprus problem as means of pressure on Greece. Sources indicate that the right wing in Cyprus has started to move toward the overthrow of the actual government. Behind the scene, the US administration plans to put into power a pro-US right wing government that would support Nato and under which control Cyprus would be united. This plan has been approved by the military dictatorship of Turkey as it could be evidenced by the raise of US economic aid and assistance to about US\$ 800 million to Turkey.

Despite the US administration's actions and pressure to Greece, it is unlikely that Greek government's attitude would change, chiefly because the national stand of the government enjoys a wide support from the Greek people. During the few past weeks, the Greek capital has witnessed mass demonstrations demanding the withdrawal of Greece from Nato and dismantling of US bases from its lands.

Undoubtedly, the support expressed by the masses have consolidated the position of the government in the face of the US administration. In retaliation, the American Assistant Foreign Minister for Foreign Affairs cancelled a meeting scheduled to be held with Papandreu and has attacked the Greek attitude towards the Cyprus issue.

Hence, the national sovereignty issue has been for Greece a real test to the extent of the ability of the Socialist and democratic forces alliance to steadfast before the challenges and economic pressure of the US administration and its allies in Nato.

In this regards, no doubt that the people masses of Greece represent the real force to counterbalance these challenges. Besides them stand all progressive and democratic forces in the world in support of the just national demands of the Greek people with their progressive forces.

-0-0---00-0-0-0-0-0-0-

5TH ANNIVERSARY OF THE AFGHANI REVOLUTION
FURTHER ACCOMPLISHMENTS AND VICTORIES..
=====

On April, 27 the friendly Afghani people celebrated the triumph of their revolution, the revolution that gave to Afghanistan its real face and to Afghani people the begining of free and decent life. Under the leadership of the Afghani Democratic People's Party, the Afghani people have achieved great political, economic and social accomplishments.

Everyday further victories are achieved over mercenary gangs guided by the CIA and its allies in neighbouring reactionary countries. On the occasion of the anniversary of the glorious revolution, the Afghani people along with all revolutionary forces value the honest support being extended by the friendly Soviet Union to the Afghani people and Afghani revolution for defeating the counterrevolutionary gangs. US imperialism in coordination with its allies reactionary countries through increased support to the counterrevolution does its utmost to hinder Afghanistan's revolutionary march towards the construction of a free and decent life for its citizens towards peace and social progress. The counterrevolutionary gangs, the US puppets under pretext of Islam kill innocent people whose will is to get decent life guaranteed by their revolutionary government under the leadership of the Afghani Democratic People's Party and its Secretary General Babrak Karmal.

The international imperialism along with its allies, the reactionary forces: Saudi Arabia, Pakistan, Egypt and the Qaboos regime, speculate on Soviet support to Afghanistan, which is a response to the request from the Afghani government, for their campaign of misinformation on the heroic Afghani revolution.

Despite the imperialist and reactionary conspiracies, the Afghani people under the leadership of the Afghani Democratic People's Party, with them freedom and peace supporters stand side by side to defend freedom and independence of Afghanistan and the gains of April revolution.

The achievement of the Afghani people during the previous five years clearly show that the Afghani people are on way to build new life, life in freedom, prosperity and social progress.

Greetings to the fifth anniversary of the glorious Afghani revolution.

Greetings to the Afghani Democratic People's Party, leader of the immortal Afghani revolution.
